# What is the Alabama Credential Registry (ACR)?

- The ACR is a primary component of the Alabama Talent Triad (ATT) which includes the following components to comprise a full-scale talent marketplace ecosystem:
  1. Validated Learning & Employment Records (LERs) for all Alabama students via ATT Digital Learner wallets
  - 2. Alabama Credential Registry** with Compendium of Valuable Credentials
  3. Skilled based job generator
- Breaks programs down into course level micro-credentials to power/inform the ATT Recommendations\* for personalized learning pathways and jobs
- Sets the stage to support Validated LERs for your students via “Add Credentials > Sync from Provider” in the Alabama Talent Triad as well as more transparent and efficient recognition of prior learning.

# Current State

---

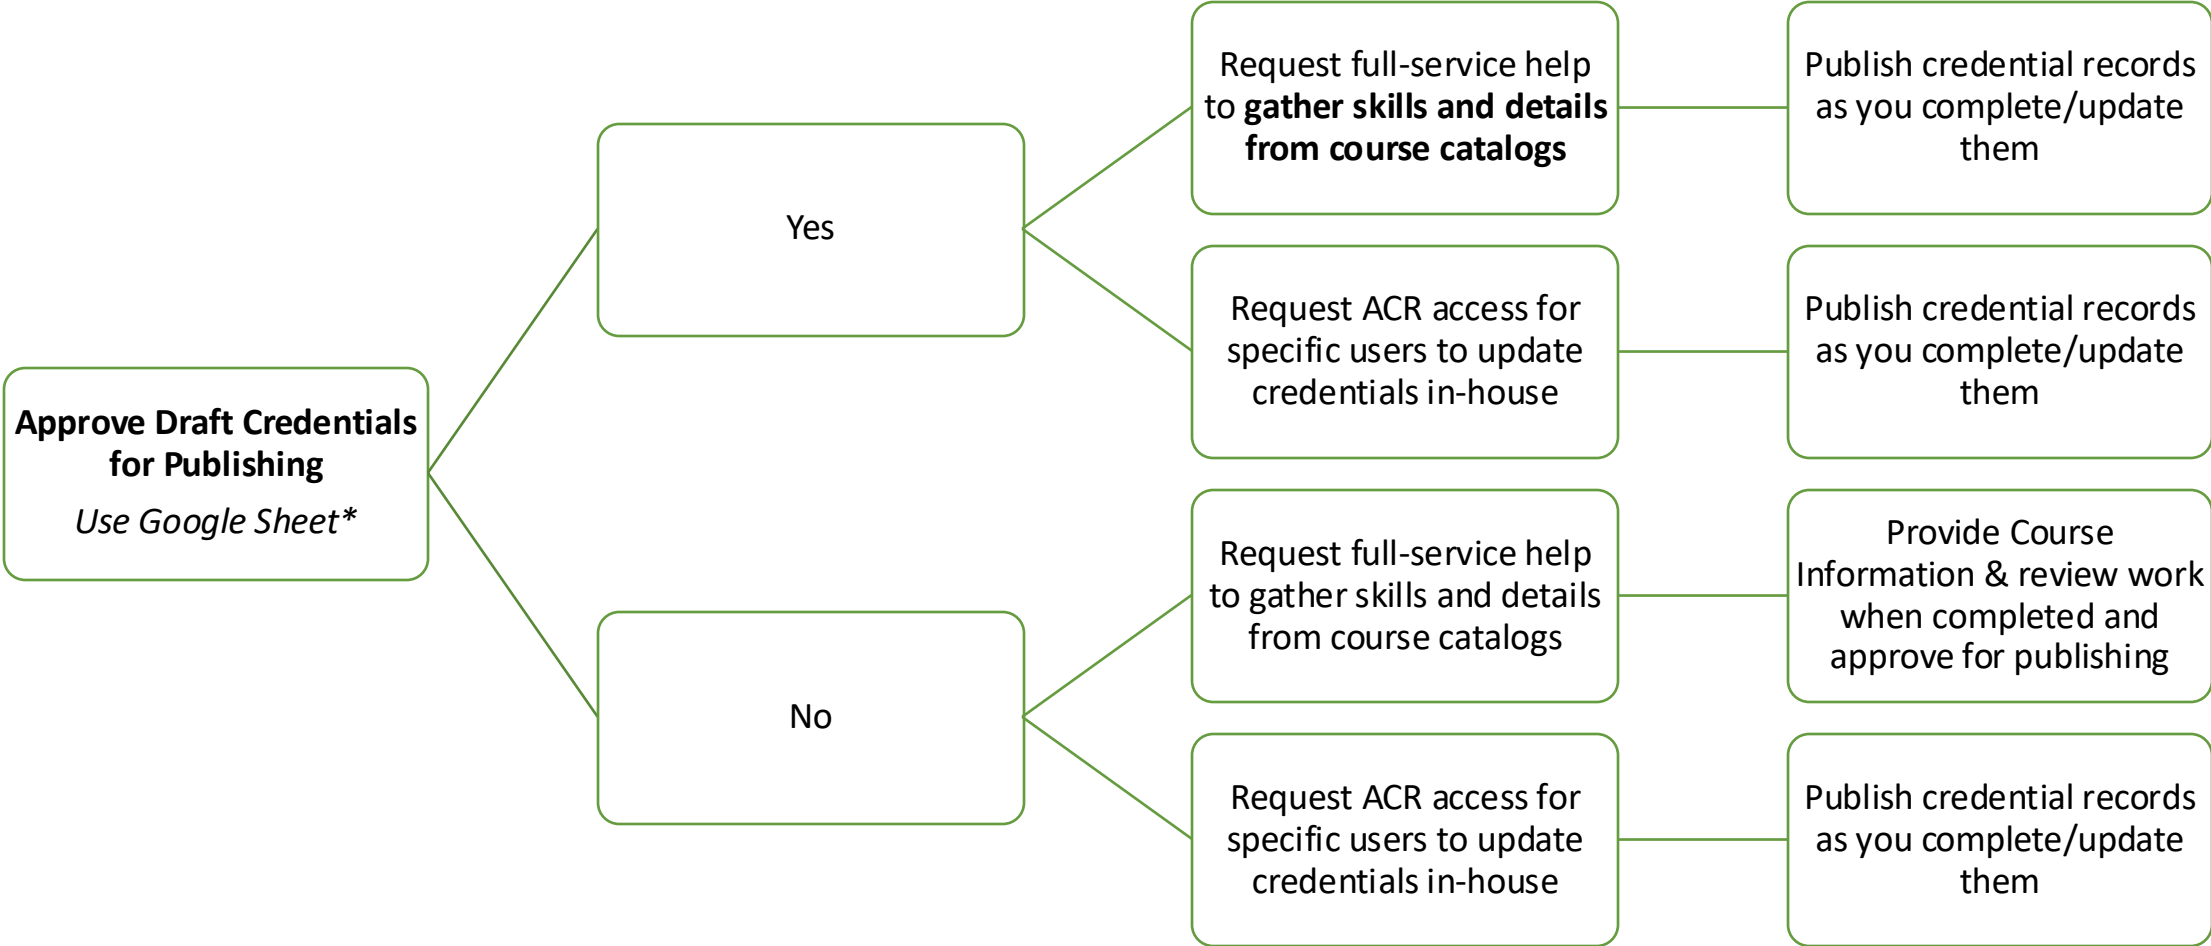

Each also provides Validated LERs via the ATT

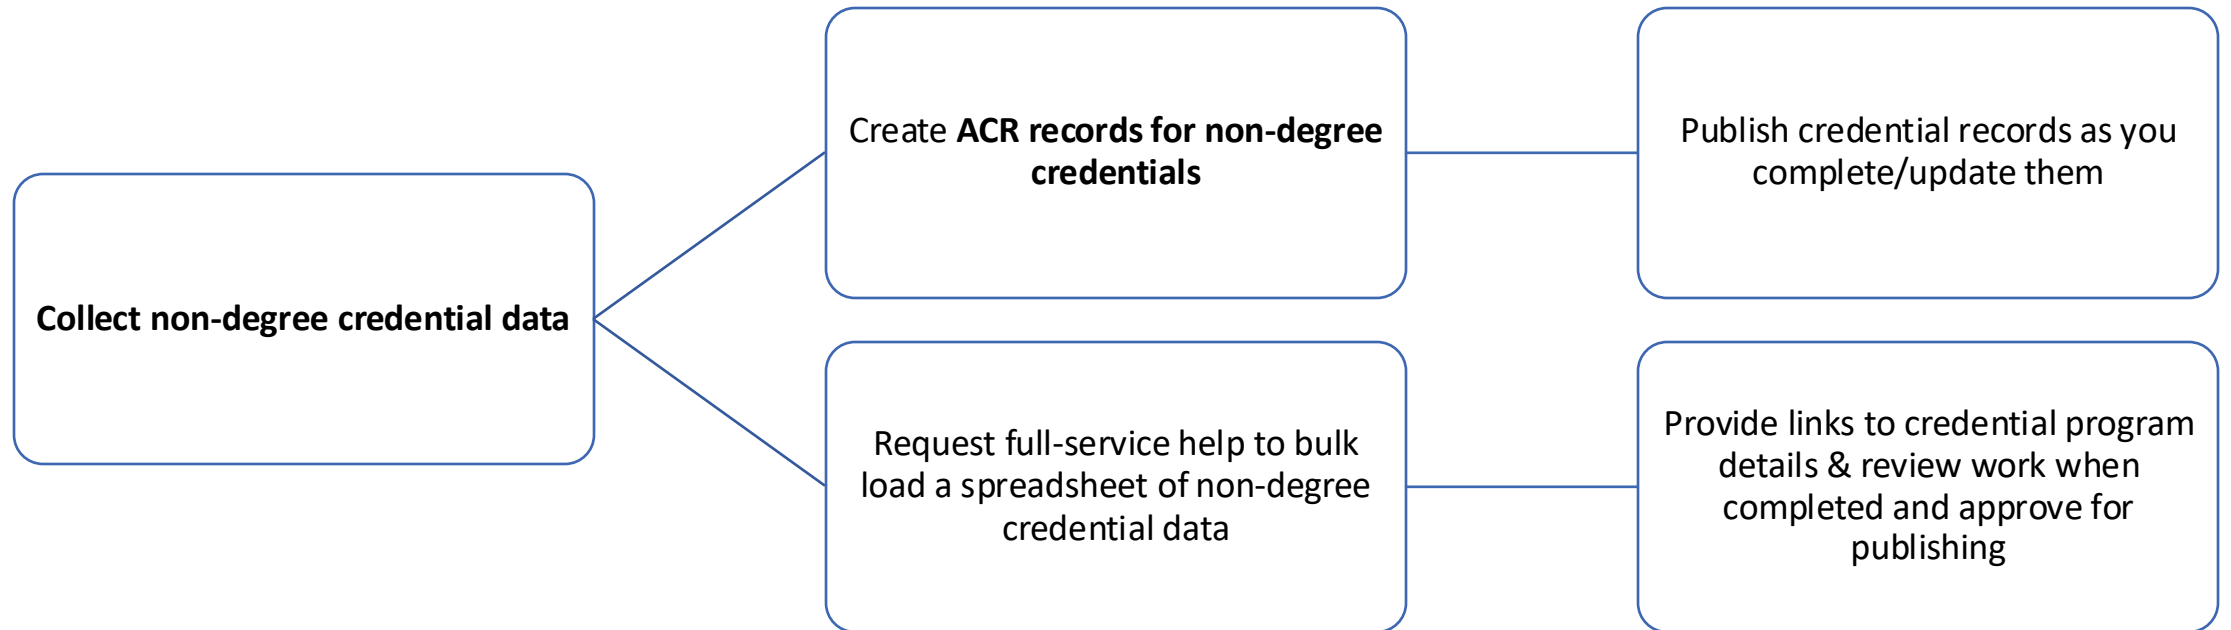

Additional user accounts may be requested at any time via this Google Sheet

How does it work?

# Visit AlabamaTalentTriad.com

The screenshot shows a web browser window with the URL <https://www.alabamatalenttriad.com>. The page features the Alabama Talent Triad logo in the top left, a "Partner Signup" link, and a language dropdown set to "English". The main heading is "Make All Learning Count", followed by the text "Students, job seekers, employers, and education & training providers earn, learn, and grow in Alabama." Below this is the prompt "Start your journey to learn and earn." with two buttons: "Log In" and "Sign Up - It's free". A red hand cursor is pointing at the "Log In" button. The footer contains the "ALABAMA WORKS!" logo, social media icons for Instagram, Facebook, YouTube, and LinkedIn, and three columns of navigation links: "How it works" (Employer Training, Student Training, Family Training, Teacher Training), "Learn more" (About Us, Our Mission, Learners, Employers, Ed & Training Providers, Job Fairs, Events), and "Find" (Apprenticeship Sponsors, Occupational Explorer, Skills-based Jobs, Credential Registry, Compendium of Valuable Credentials, Tools).

**AA Liberal Arts**  
Northeast Alabama Community College

The Associate in Arts Degree is designed for students planning to transfer to a senior institution to complete a program of study in the liberal arts area.

**Skills Summary**

The Associate in Arts Degree in Liberal Arts is a comprehensive program designed to equip students with a broad range of skills and knowledge essential for success in today's digital age. This degree serves as a foundation for those planning to transfer to a four-year institution to pursue further studies in the liberal arts.

Throughout the program, students will gain proficiency in using various software applications and tools that are crucial for effective communication, data management, and problem-solving. They will learn to navigate and utilize the features of operating systems, becoming familiar with the basic components and functions of a computer. Additionally, students will develop a deep understanding of file management processes, enabling them to organize and maintain digital resources efficiently.

One of the core focuses of the program is the development of strong word processing skills. Students will learn to plan, create, and edit professional documents using industry-standard software. They will explore the various features and tools available within these applications, allowing them to produce well-formatted and visually appealing documents. Moreover, students will gain expertise in using presentation graphics software to create engaging and informative presentations. They will learn to incorporate various elements, such as text, images, and multimedia, to effectively convey their ideas and captivate their audience.

The program also emphasizes the importance of data management and analysis. Students will delve into the world of spreadsheets, learning how to create, format, and manipulate data using electronic spreadsheet software. They will gain an understanding of the various functions and formulas available, enabling them to perform complex calculations and generate insightful reports. Furthermore, students will explore the fundamentals of database management, learning how to design, develop, and maintain databases. They will understand the components of a database and gain hands-on experience in creating tables, forms, and queries to efficiently store, retrieve, and analyze data.

Throughout the program, students will develop critical thinking and problem-solving skills that are essential for success in the liberal arts field. They will learn to analyze complex information, draw meaningful conclusions, and communicate their findings effectively. The program's emphasis on technology and digital literacy ensures that students are well-prepared to thrive in an increasingly digital world.

By completing the Associate in Arts Degree in Liberal Arts, students will have acquired a comprehensive skill set that encompasses proficiency in word processing, presentation graphics, spreadsheets, and database management. They will be equipped with the knowledge and tools necessary to effectively communicate, analyze data, and solve problems in various contexts. This degree provides a solid foundation for further studies in the liberal arts and opens up a wide range of opportunities for personal and professional growth.
